THE WELDON FAIR.

The Largest Crowd Ever Present--Racing, etc. Special Telegram to the News.

WELDON, N. C., Oct. 31st, '78. The day was a perfect one, all that could be wished. The attendance was larger than ever before, and the receipts were very large.

The grand race was won by Hampton. The day will be remembered as one memorable in the history of the Fair.

A Tennessee Tragedy. By Telegraph to the News.

NEW YORK, Oct. 31 .- A special from Nasheville, Tenn., says a horrible tragedy occurred within three miles of the Hermitage last evening. John Cloyd, colored, had that morning quarrelled with and fatally shot Winfield Mc-Whirter, in an altercation concerning the picking of some cotton. Frank Warpool was deputized to arrest Cloyd. He summoned Dr. Rayner, James Mc-Whirter and John Osborne to assist in making the arrest They went to the house of John Williamson, colored, and found him heavily armed with two pistels and a gun, and saw two men run from the house as they entered. They took Williamson into custody and started down the turnpike with bim, believing they would overtake Cloyd at Green Hill village, not far distant. When in front of Dr. John Gleave's residence McWhirter went into it to leave a gun he had borrowed, thinking the danger had passed. McWhirter and Gleaves started out to meet the posse, but as they reached the door brisk firing with pistols on the turnpike commenced. When they reached the scene of action Warpool and John Cloyd lay dead in the road. Dr. Raymer was found to be shot through the arm and thigh and dangerously if not fatally wounded. Two men who were supposed to have been with the attacking party ian off.

Washington Notes.

By Telegraph to the News. WASHINGTON, Oct. 31.—Owing to the supension of the German American National Bank of this city, the German-American Savings Bank has also suspended. Both of these banks were owned and patronized principally by Germans. The suspension caused much surprise. The president of the German American National Bank is John Hitz, the Swiss consul General in this city. A shrinkage in real estate values, in which both banks were largely inter-

ested, caused the failure. The State department is advised that an international exhibition will be held in Melbourne, commencing October, 1880. Parliament has voted three hundred thousand dollars for the erection of the necessary buildings.

SAN FRANCISCO, Oct. 31.— A steam er brings the following advices from Hong Kong of the date of Oct 1: On the night of Sept. 25th an extraordinary attack was made by Chinese pirates on a house in Hong Kong, occupied by a Chinese merchant, supposed to contain large quantities of treasure. The assailants landed at midnight, and organized an assault with great care, posting sentinels and keeping a guard over the entire neighborhood. A fight was maintained for several hours between the pirates and police. The former were at last dispersed and fled in beats. One of the pirates was killed and several were wounded on both sides. The pluuder secured by the thieves was small. Great excitement prevails in Hong Kong.

The Attitude of Our Government.

Philadelphia Times. The treaty of Washington appears to be another instance of a treaty that does not settle anything. In the new question that has arisen—or rather the new phase of an old question—we believe our government to be right and Great Britain wrong. No govern-ment can admit that the interest of its citizens shall be subjected to what Mr. Evarts calls "the unregulated regulation" of another government, by which the caprices of local legislation may override the most solemn assurances of international treaty, and our State Department does well to insist, as it does with great dignity and moderation, upon an essential modification of the position assumed in Lord Salisbury's recent letter.

The Latest in the way of Projectiles.

New York Sun At the close of her trapeze act at the Aquarium, Miss Geraldine was assisted to the raised muzzle of a cannon, into the bore of which she slipped feet first, lying on her back. Her head and neck were just visible when the gun was charged. Then she gave the word, the report of the camon was heard, and she flew toward the spectators, going straight line before she dropped to the net spread to catch her. When she again stanged was a three straight line before she dropped to the fully imputed to him. Lieut. Ch rles S. Hall, of the Thirteenth infantry, was in charge, having assumed that position immediately after the dea h of Lieut. Benner.

Charleston Improvements.

Charleston, S. C., is anticipating great results from the construction of jetties by the United States Government at the mouth of its harbor. A tantalizing bar has hitherto proved an obstacle to the free passage of shipping, but this projected improvement will increase the depth of the water by at least ten feet, and enable the largest ships to pass at all times. The opening between the jetties will be a half mile wide, and through it will flow the waters now spread over a line of ten miles.

Fibre Paper Abolished.

Washington Post. The Secretary of the Treasury has determined to call, by public adver-tisement, for proposals for furnishing bank note paper upon which to print United States notes, National bank notes and other securities of the Government. The advertisement will call for a distinctive paper and for a device or devices which can be placed upon the paper that can be used, and which, if adopted, will become the exclusive property of the Government.

Grant in 1880.

Boston Herald. Postmaster General Key says he met no Republican in his travels who was opposed to the re-election of Grant. "There is no telling," what two years may bring forth, but if, in 1880, the peace and stability of the country be endangered, Grant will be in general demand, and the advocates of a strong Government will rally to his standard. While a few Republicans are opposed to to a third-term idea, yet, if nominated, Grant would certainly be elected, provided, as I stated, that the public tranquility is jeopardized, and the necessity is apparent for a re'urn to strong measures.

Silver in Europe.

Chicago Times. A prominent banker of this city. who, during a recent trip across the Atlantic, had access to the highest banking circles in London, says that he found there a very general opinion that the depreciation of silver would prove only temporary. Among those who ex pressed this view were the Governor of the Bank of England and the head of the house of Rothschild. The Bulletin says these expressions of opinion are worthy of note, as an offset to the fears prevailing in some quarters that the depreciation of our silver circulation may prove a source of embarrassment of indefinite duration.

The Virginia State Fair. Richmond Dispatch.

Generally speaking, the Fair may be set down as considerably above the average. Some of the departments are far superior to what they were in former years. In the cattle department the entries are numerous, and the quality very; superior. The short-horns are represented by worthy selections from the herds of our best breeders. The horses are numerous, valuable and admirable. The hog department is a triumph indeed. A tutional government in the United judge declares that it is equal to the States. A Child's Horrible Death.

Charlotte Observer. A dense cloud of smoke i suing from Mr. I N. Alexander, Jr., in Sharon township, the dwelling of Moses Welsh, a colored man, attracted the attention who happened to be passing that way. They went up and found that a stack of cornstalks which had stood against one side of the house had been con-sumed and the building itself was burning. They found no one within but when they had put out the flames and were looking around for some explanation of the origin of the fire, it was a sickening and pitiable sight they saw. A short distance from he house was coiled up the charred remains of Moses Welsh's five-year old boy. The hands were drawn up till the cords of the partly cooked fingers almost touched the wrists. The legs were more crooked and the lower portions was almost entirely bare of flesh. Not a particle of clothing was left on the body and no hair on the skull.

A Sad Monarch.

N. V. World. After Mercedes' death King Alfonso passed every moment not absolutely needed for business of State secluded in the Escurial, spending many hours in the vaults and declining to see any one. His table was always set for two, and he would remain gaping at the vacant chair opposite him, hardly touching a morsel of food. It required the earnest representations of his family and ministers that this seclusion might breed popular discontent to induce him to return to Madrid and resume his audiences and public appearances.

In the Sunday school he was a burning and shining light, and the children of the communi ty were brought up to regard him as an exemplar. N. Y. Tribune. Europe continues in a feverish state. The Berlin Treaty, by which England tried to curb Russia, is proving inoperative, and each great Power is preparing for the worst. The fatal defect in that agreement was that it provided no adequate means for its own fulfilment. The Powers trusted to the good faith of Turkey, expecting that she would neither dare to forfeit their good opinion, nor run the risk of resisting their decrees. But the Porte has since done nothing, except under coercion, and was imposed on part of Roumelia, which had been liberated by the Treaty of San Stefano, and the just claims of Greece to territory were to a large ex-tent disallowed. It follows from these and other causes that the great pact has now few sincere defenders. In London the most independent of the Conservative journals pronounces it a failure, calls for war, and suggests that a Continental all'auce be formed at any price. In Rassis a ne same type declares that the Russian people are also for renewed hostilities, holding that the Balkan peninsula can not be organized on the basis of "humanity and justice" without a fresh war. The protest which the British Government has proposed may make the crisis graver. Unless, however, that remonstrance is backed up by men and guns, Russia is not like to heed it

Vote for Joe Davis.

Remember, Tuesday is election day. There will be elections in thirty States next Tuesday.

Democrats, do your Duty.

Go to the polls yourself and see that your neighbor goes with you.

Do not set too light a value on your vote and think it may not be needed.

Indifference is the main thing we have to guard against. A few votes lost in each township will amount to a large sum in the district.

General Johnston, of Virginia, is making an earnest canvass of his district and is everywhere received with enthusiasm. He has the solid support of the city of Richmond, and in the country the opposition has been reduced to a very vulgar fraction. His friends are working with hearty good will and great spirit, and have worked up such a pow-

Kentucky.

There is a brisk canvass at present progressing in Kentucky for the Gubernatorial nomination. In that unswerv ing Democratic commonwealth the campaign for Governor begins long before the meeting of the State convention, the candidates making the contest over the nomination, as a nomination by the Democratic party is equivalent to an election. There are several candidates in the field, of whom Hon. John C. Underwood seems to be most likely to obtain the prize. He is the present Lieutenant Governor of the State, and judging from the comments of Kentucky newspapers, is a man of stump-speaker and immensely popular throughout the State.

The Primary Scheme a Failure.

There is a very decided current of feeling against the primary election scheme in Wake county, which grows in power as the day approaches. Besides the puzzling questions which arise as to who shall at that time be admitted, as true Democrats, to cast a vote, comes the knowledge that there must needs arise a thousand differences and doubts as to which shall vote, split ticket, or straightout Democrats. But, above all these complications stands the fact which we now give, that a former experiment of the same nature in this State, proved so lamemtable a failure as to become a very mockery upon such elections. We refer to a case in a western county, some years past, where a primary was held just prior to the election for State Senator and county officers. The contest between the two candidates for senatorial honors was a bitter one, and excited very general enthusiasm on the part of the supporters of each, who when the primary was held spared no pains to bring out every vote for their respective favorites. The lame, the halt and the blind of the party were made to do a voter's duty, but still the results were not satisfactory, and finally, renegades, pronounced and violent Radicals, and, it was said, a great number of ignorant negroes, were voted right through, in much the same style in which a newly arrived Paddy is treated on his landing at New York. When the votes in this primary came to be counted the result showed that about 700 more votes than there were Democrats in the county had been cast during the day.

Consistent.

It is a singular piece of effrontery that almost the sole charge urged against Capt. Jos. J. Davis by the Mr. Turner's election. The ox is in Radical wire-pullers, from Ike Young, their field, this fall. Bledsoe, Badger and Turner, down to "Cates' blessed baby," is in relation to

and declaring that "the thanks of the country are due to" him, and the others! These resolutions were adopted without opposition in the Senate, if we recollect aright, and passed the House with nearly equal unanimity. Of the Democratic members, Capt. R. A. Shotwell and two other gentlemen alone voted against the resolutions.

In view of these facts, and disregarding the unfortunate and not to have been expected results of the "8 to 7" commission, can any reasonable person blame Capt. Davis for doing that which nine-tenths of his constituents of both parties considered judicious, prudent, and the best that could be done? "Consistency, thou art"-in Radical hands-a mere mock-"jewel!"

Party Fealty.

Can any man professing to be a Dem ocrat, and opposed to the supremacy of Radicalism in North Carolina, vote for Josiah Turner for Congress, and preserve his party fealty? This is a very serious question, and one which many Democrats in this District should seriously consider.

There was held in this city on June, Democratic Convention for the purpose of naming a Democratic candidate for Congress. It was largely attended and composed of representative Democrats; it was fairly conducted, and after due deliberation and many ballots, Jos. J. Davis was nominated. He is a gentleman of integrity and ability, and of high personal character. His course in Congress has reflected the views of those whom he has represented; he has been diligent in the discharge of his duties and faithful to the interests of the people of this District; his experience will enable him to represent them better, if possible, in the next Congress. Why should a man, professing to be a Democrat, vote for Mr. Turner in preference to Mr. Davis, the regular nominee? We are unable to

We are willing to admit, for the purpose of this discussion, all that is urged by those Democrats, who say they will vote for Turner, as their reason for so doing. It is, as we understand them, that he has done more than any other one man in North Carolina to build up and sustain the Democratic party in this State, and that he has not been sufficiently rewarded therefor, either with official station or pecuniarily. We think that the assertion is not in fact true, but for the sake of argument we admit it. It is at best the promulgaful feeling in his favor that very few tion of a queer kind of political creed, people in the district, native or foreign, that a man who labors for his party and white or black, will vote against him. fails to receive sufficient compensation, is therefore at liberty to turn upon his party and seek to weaken and destroy it. Such creed places a man in his relations to the party to which he professes allegiance on a strictly financial basis-debit, the services he renders the party; credit, the money and offices he makes out of it. If, at any time, the balance is in his favor, unless it is speedily liquidated to his satisfaction, he can seek to obtain the balance due at the hands of his former enemies. This, to say the least, is a bad sort of political morality to be taught the young men of North Carolina. We think it cannot stand the test of an impartial and honest consideration.

Admitting Mr. Turner's past services to the party, we insist, in the name of great ability and high character, a fine the Democrats of this District, that SAVE TO LEARN HOW TO DO they give him no right or license to attempt to break it to pieces. Because he aided in bringing safely into port the "old ship of Democracy," freighted with the honor and liberties of the people of North Carolina, and has not received proper compensation for his labor, is he therefore at liberty to send the vessel out again among the breakers and wreck it if he can? In such unholy work, we can not conceive how an intelligent Dem crat can countenance or aid him. If a man assists in driving out burglars from your house, and is dissatisfied with the reward you give him, is he justified in aiding the burglars to again obtain possession and sharing the plunder with them? If Mr. Turner assisted in driving the horde of thieving Radicals out of office in North Carolina. and is now discontented with the remuneration he has received, is he therefore justified in aiding to re-open the way that they may again enter and take possession? We think not. But his Democratic advocates say he is not working in the interests of Radicalism -that he is an Independent Democrat. Is that so? We have never yet been able to get a satisfactory definition of an Independent-he is generally depending for his support upon the party to which he was lately antagonistic and well nigh invariably gets into full fellowship with his late opponents. The election of Mr. Turner will be, vecessarily, in the interest of one party or the other. It certainly will not be in the

interest of the Democratic party, and there is but one other in North Carolina. Upon what votes is he relying? Upon a few hundred Democrats and the bulk of the Radicals. The N. Y. Times, the leading Republican journal in the United States, in its list of Congressional candidates, classes him as an Independent Republican. His position in no wise differs from that occupied by Mr. Bledsoe in last summer's campaign, and yet there are some Democrats who then denounced Mr. Bledsoe

Good Advice.

The United States Commissioner of Pensions cautions persons entitled to pensions not to apply to Washington laim agents but to obtain legal advice and assistance from their local lawyers, as the new law in relation to claim agents' fees does not require advance payment, and reduces the fee from \$25 \$10. This is well. Probably few persons have any i lea of the amount of swindling perpetrated by the shysters calling themselves claim agents. After the war the country was filled with widows, children, and crippled Federal soldiers entitled to pensions. unpaid bounties, uncollected pay, transportation, etc., amounting in the aggregate to millions of dollars. In the South, most of these 'claims' were held by the lowest, and most ignorant class; the rude "Buffaloes" and mountaineers in the Federal army, deserters from our service, and the negro troops, or their families. Of course these were the very best sort of material to furnish dupes for the "claim agents." We have in our mind at this moment two of the "sharks" who made fortunes by stealing from the credulous negroes through some such methods as the following :- The "Agent," baving put himself on famaliar terms with the colored people of the locality, gradually ascertains who among them are entitled to pay, or bounties, or have other claims, direct or indirect, against the government. In many cases the parties are themselves unaware that they have such claims. The Agent suggests that there may possibly be a slight chance, by the special exertion, of the unusual influences he happens to possess with the Washington authoritiesto get something-a little, if not the whole! The negro is delighted to hear it, and readily swears to anything the agent proposes,-no matter how untruthful. Armed with these pointblank affidavits the agent speedily secures the claim, and pockets it. At the end of a mouth or so the negro calls, and is told that all things are working right, though "these Federal officials are monstrously slow." Other months pass, and the dupe is told there is "a hitch; prospect not so good;" rather fears it will be lost. At the next meeting the "shark" talks gloomily and intimates a desire to abandon the application, but his dupe begs him to hold on Finally, the "lawyer" announces that the government has detected "fraud," or "suspects something,"-and the

whole matter had better be let alone else somebody would be sent to prison. The negro, half frightened and wholly discouraged, eventually sells the claim to the Agent for less than a tenth of its value, and is paid out of the very money the latter collected years before. No

A GERTAIN AND SPEEDY

GURE FOR SCROFULA

FACTS ARE STUBBORN THINGS

A BRIEF HISTORY :

The following is from the Raleigh News, and was a voluntary insertion and not an dvertisement: and was a voluntary insertion and not an advertisement:

"Years ago an old Indian left a receipt for curing Scrotula with Mrs. Person's father. Mrs. Person lives in Franklinton, or in that section. A child was born to Mrs. Person, and it had the Scrotula. The doctors gave it up to die. She thought of that receipt, that was now old and musty, and hid away in an upstairs grawer. She concluded if the child was bound to die, it wouldn't hurt to follow that receipt. She went out and gathered the herb, got the whiskey, and did as directed to the cuild. Her child now lives well and hearty. More than this: Only a lew months since a South Carolinian, whose name has slipped us, was suffering with some Scrotulous affection on the heel. He had been to the Hot Springs in Arkansas, and from there he went to Kittrell Springs. Not ing did him any good. At Kitt ell's they told him of Mrs. Person's recipe, and Dr. — wrote to Mrs. Person's recipe, and Dr. — wrote to Mrs. Person's recipe, and Dr. — wrote to Mrs. Person's recipe. and Dr. — wrote to Mrs. Person a check for twe hundred dollars. She sent him directions what to do, and added if they cured bim he could send her twenty-five dollars; she wouldn't ask five hundred. The South Carolinian weat home. and shor.ly afterward sent hirs. Person a check for twenty-five dollars, and wrote the most grateful letter he knew how. Bless these old indians. We would like to a ve one for a near neighbor."

Dear Madame—Your letter has been received, and on account of being absent from home for a week or two, have not hed the opportunity to answer it. I certainly will take great pleasure in doing all that is within my power towards getting you patients for treatment of Scroiula. I hardly know how to express my gratitude to you for curing my three little children. They took medicine from my family physician for about two years, with scarcely any relief at all. I tried your remedy, and in less than three weeks they were all perfectly cured, and have never shown any sign of breaking out again. I feel very thankful to you. I can safely say that I believe your namecy to be a certain cure for Scrofula. If I can ever be of any service to you in any way, I want you M. S. JOE PERSON

which I will sell at Factory prices Freight It gives me much pleasure to be able to state that I have derived an effectual cure of Scrofula from the use of Mrs. Joe Person's remedy for that disease. I had suffered from Scrofula for more than three years, and had despaired of ever getting weil. I was treated during that time by three very eminer t physicians, without anv good resuit. I then went to the National Surgical Institute, at Arlanta, Ga., and was treated there more than two months, with no better result than my family physicians met with. After I returned from the Institute I was persuaded to try Mrs. Person's remedy, and I had not used it more than a week before I discovered its curative and healing properties, My sores soon began to heal, and the color of my skin changed as fast a the sores healed. I had not thought of ever getting well again, but my hopes increased, my low spiritedness fied before the remedy, and I am now envoying splendid health and am in good spirits. The remedy is mild as a purgative, and a strong tonic; it will heal the most stubborn sore in three weeks if taken regularly. It is my opinion that it should be taken some time after the sore is hasled, to remove the cause of its effects, It should be taken regularly by all means, for I have sometimes neglected it, from the pressure of business, and in all cases found that the cure alleady made would commence to retrograde, and for this alone it should be taken regularly until an effectual cure is completed. Nothing should prevent regularity in the use of the remedy and its should be taken at the proper time. I would be considered at the proper time. I would be taken at the proper time. I would be considered at the proper time. I would be taken at the proper time. I would be considered at the proper time. I would be conside "It will Cure if Fairly Tested." which I will sell at Factory prices Freight added. Correspondence selicited.

KITTEELLS, N. C.

My receipt for the cure of Scrofula has been tried by me with the most unprecedented success for the last twelve years. and I have no hesitation in recommending it as a sovereign cure for that disease and as a general Tonic and Blood Pur lifer. It is everywhere giving perfect satisfaction, while my experience with it is too limited for me to specially recommend it for other diseases, I believe it will ultimately prove to be of benefit in all cases arising from impurity of the blood and probably for other diseases

A CASE OF CANCER.

FAYETTE VILLE, N. C., Aug. 72, 1878.

MRS. JOE PERSON:

Dear Madam—I have been using your Remedy for scrofula overfive months as an experiment for cancer. The cancer is of longstanding, the doctors have been treating it, more or less, for twelve years, it has taken off my upper tip and a good part of my nose. When I began to use your Remedy it was growing rapidly werse, but the medicine seemed to check it very soon, and it has not made much progress since, except about two months ago, the medicine gave out, and I was without several days. It tuen seemed to start anew, and grew worse very fast, until I had taken the medicine about a week, since then it has not changed much. I think if I could have had the medicine soon enough, it would have cared me.

For more than a year before using your medicine. I was troubled very much with a disease of the heart, an irregularity in its action. It would miss every third beat for hours, then at other times it would increase in its action, and run up to 20. beats per minute. Since using your medicine. I am almost entirely relieved of this, rarely feel it, and then not enough to speak of it. I would recommend any one suffering with heart disease to try your medicine. As a Tonic and Alteratives known to the medical porcession for the last 12 years and I know of none superior to this. I think your medicine is desined to be a great blessing to the afflicted. Let every one that needs a Tonic or an Alterative give it a trial, and I do not think they will be disappointed.

One of the most recherche weddings of this super-connubial season was yesterday afternoon celebrated at the Edenton Street Methodist Church, the high contracting parties to which were Mr. Lee S. Overman, Private Secretary to Governor Vance, and Miss Mary Paxton, eldest daughter of Hon. A. S. Merrimon. The interesting occasion drew a great crowd, which filled the church and its grounds long before the hour fixed for the ceremony. The in-terior of the building was brightly lighted, and gay and sweet with flowers. These, mixed with evergreens, were looped on the pillars, while over each aisle was a graceful arch. In front of the pulpit was a large arch, while passing from this to the rear wall de-pended two wreaths of evergreen and white chrysauthenums. From the point where these intersected depended a marriage bell of tube roses. In front of the pulpit was a mound of flowers, surmounted by a magnificent bouquet The rear wa'l was adorned with a lyre of roses, beneath which were the wreathed initials of the names. On

each side of this was an elegant bou-At 5 o'clock the precession entered the church in the following order: Messrs. Thos. Foust, Joseph Brown, B. B. Lewis, Jr., and George Smith,

Mr. Branch H. Merrimon and Miss Nellie Scales, of Greensboro. Mr. Edwin R. Overman, of Salisbury, and Miss Lillie Carmer.

Mr. W. W. Overman and Miss Ella Dowd, of Charlotte. The Bride and Groom The briefly impressive ceremy was then performed by Rev. A. W. Mangum, D. D., assisted by Revs. J. B. Bobbitt and W. S. Black. The music

was by Prof. Baumann. At the close of the ceremony the party left for the Central depot, where they took the cars for Salisbury, attended by the wishes and hopes of their many friends for a life of happiness.

This will assemble in the city to-day, at the Salisbury Street Baptist church. The outlook for a very large meeting is flattering. A good number of representatives from all denominations in the State have sent their names with a promise to attend, while there will be great numbers of mere visitors, who feel an interest in the work. The committees from the various schools in the city are busily engaged in preparing homes for the representatives, and hope to have the pleasure of entertaining several hundred. The railroads, too,

have made very liberal offers, and all things point to a gathering which has never been equalled here of the kind. The importance to the State of this o :ganized movement in the great Sunday School work can not be overestimated. Below is given the programme for the work of the Convention to-day. This is merely the outline of the work to be done, the discussions on the Sunday School Institutes and Normal classes to prepare teachers for the Sunday inter-

national lesson work. 12 o'clock, m.: Temporary organiza-tion. Address of welcome by Robt. T. Gray, Esq., Raleigh.

To the Democratic Voters of Wake County.

The resolution of the Democratic Convention last summer, ordering a prinary election for the purpose of ins structing our Democratic representatives as to their vote for Serator in caucus, is causing trouble in the Congressional campaign, and the contest between the friends of the two candidates for Senator is injuring our nominee, Capt. Jos. J. Davis. Therefore, we advise that, for the good of the party, this matter should be kept as much as possible out of the canvass, and for this purpose suggest that all friends of Capt. Davis unite in exerting such influence as they have in seeing that vote "Uuinstructed" in the primary
